## "FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer Manufacture of Monocetacids of Salicylic Acid.

# The Lobaco Company Increases Capital Stock

## From \$50,000 to \$150,000

THE CAPITAL STOCK OF THE LOBACO COMPANY, A KENTUCKY CORPORATION, IS BEING INCREASED FROM \$50,000 TO \$150,000. THE NEW ORGANIZATION WILL BE AN ENLARGEMENT OF THE OLD ONE AND WILL ACQUIRE THE ENTIRE BUSINESS, INCLUDING ALL REAL ESTATE, COCA-COLA RIGHTS AND PLANT, COPYRIGHTS, AND ALL GOOD WILL

## The Capital Stock Will Be Divided as Follows:

Common Stock	\$ 25.00 Shares	\$125,000.00
Preferred Stock	\$100.00 Shares	\$ 25,000.00

Upon the completion of the financing there will be no bonded indebtedness or mortgages on the property of the company. Up until July 4th, the date of our loss by fire, our business had steadily grown since its incorporation January 1, 1916. Our Baking plant was running at full capacity. Business will be carried on under the new company as before, and greatly enlarged.

In addition to our soft drink and baking business, which we have followed since incorporation, the new company will install an Ice and Cold Storage Plant and an Electric Light Plant for the city of Louisa. Our reason for installing the Ice Plant is to fill a needed industry in this territory and a very beneficial help to the soft drink industry. The reason for the installing of an electric plant is to furnish power to the city and reduce the overhead expenses for the ice plant. All of the above will be under one management, one sales force and one general overhead, thereby minimizing all cost. An ice plant must run twenty-four hours each day and the Electric and Ice Plant being gas driven can be operated by the same force, each carrying a part of

the others burden, reducing costs far below the ordinary plant.

## Summary of the Business Since Incorporation

Sales for 1916	\$ 80,114.02	Net earnings	\$ 9,985.43
Sales for 1917	\$156,125.75	Net earnings	\$14,580.97
Sales for 1918	\$262,326.07	Net earnings	\$22,029.62
Net earnings first six months of 1919			\$15,067.05

The outlook for our business is brighter than ever. Bread, once a luxury, is now a household necessity. With ever increasing demand soft drinks are on a higher level and are now classed as food beverages. Our Ice Plant will run at full capacity, as no other ice plant employs traveling men. We will also manufacture Ice Cream and do a general rental cold storage business. Our Sorghum canning business will become nationally known in the next few years.

We have already gone through the "sweet" in that business which all new industries encounter, and last year in the city of Lexington, with much effort we placed 600 cases, this year, with less effort, we placed 2300 cases. We are also having calls from all parts of the country. We are beginning now to advertise this product and in a few years we will have a wonderful business built up. All of these connections will go to make up a "balanced business," a business

with uniform sales the year round; a business where you don't have to lay off men in one season and break in new ones in another; a business with steady incomes each month. In this new organization we will be able to control costs, buy right when the time is right, keep costs lower than a like business, efficiently build up a business in a business way.

## Stocks Are Now Placed on the Market

This stock is being placed on the market at \$25.00 per share for common stock and 7 pct preferred stock at \$100.00 per share. We are working to place all of this stock where we do business. If you are interested in either common or preferred, take it up with us immediately. It is an opportunity rarely offered the general public to purchase stock in a company which has proven its worth; to get on the ground floor, and an industry you come in contact with daily.

All stock is sold subject to 20 pct. payment with order, balance to be paid before February 1, 1920. We solicit sales from people who desire an investment and who will appreciate returns, and not the speculator. The subscriber for small stock will be protected as well as the large share holder. It is the beginning of an industry, the opportunities of which have unlimited possibilities.
